

“Diagnostics App has been rebranded as Technician App”

- Empowers technicians for HVAC tasks
- Streamlines installation, commissioning, servicing, and troubleshooting
- Provides comprehensive digital tools for seamless HVAC installations, repair, and service
- The Technician app has evolved significantly from the Diagnostics mobile app, offering a robust solution that goes far beyond diagnostics

“Diagnostics App has been rebranded as Technician App”

- New Wiring Diagrams for Link 24V TAMX – Guided Installation
- Barcode scanning for Warranty Lookup and Product Literature Search
- New Sensible Capacity Calculator
- Dark Mode Theme
- Support for Link Quiet Mode and Line set features, Link TEMC Air Handlers, XV20 Outdoor Units, and A2L Sensors
- ‘What’s New’ Carousel for new releases going forward
