Schedule 1
Fleet VIP Rules
Model Year: 2024

Model Year

Vehicles ordered during 2024 Model year.

Model Year Price Protection

This VIP will only include price protection for the **2024 Model Year** at the price on which the order is received by FCA US unless a price increase is instituted by FCA US due to necessary equipment changes, optional equipment made standard, or any design changes to the vehicle. These changes will not be price protected. In the event FCA US incurs price increases due to inflation or raw material costs which result in an increase in the vehicle price anytime during the **2024 Model Year** (even after your order is submitted), FCA US may notify you and the parties may renegotiate the price for any unscheduled orders. If you do not approve of the price increase, you will have the right to cancel any unscheduled order.

In-Service Retention Period and Registration

All eligible vehicles must be registered to and retained in service by the FAN for a minimum of 12 months or 12,000 miles. The FAN is required to register and title all eligible vehicles in its name. Vehicles are to remain in the United States for the 12 month or 12,000-mile minimum in-service retention period. Vehicles sold to Independent Leasing Companies (ILC's) are eligible for the Fleet Purchase Program, if (1) the ILC and the end-user have a FAN, (2) the ILC retains title for a minimum of 12 months or 12,000 miles and (3) the ILC sells or transfers a title to a financial institution for financing purposes only.

Warranty

All properly reported FCA US commercial fleet vehicles (NVDR type sale 3 and type sale 5) receive the 3 year 36,000-mile Basic Limited Warranty and the **5 year / 100,000-mile Fleet Powertrain** coverage. The 5 year/100,000-mile Fleet Powertrain coverage will "go with the vehicle", so there will be no need to do warranty transfers and there will be no charge to second/subsequent owners to continue the warranty beyond the original owner.

In addition, the following service contract(s) have been added to the following vehicles for additional charges indicated:

Fleet Payment and Adjustment Timing Limitations

Automatic payments will be made to VIP incentive fleet customers. Any issues related to automatic VIP incentive payment must be claimed within two years of date of sale or lease of vehicle.

VIP payment adjustments resulting from audit reviews must occur within the later of:

- 2 years from the date the VIP incentive is paid
- Or
- 2 years from the latter of the sale/lease date or the date the vehicle is reported sold/leased by the dealer

Specialty Models

Wrangler 392, RAM TRX and SRT versions of existing models are excluded from VIP incentive payments.

Discontinued Models

In the event that FCA US discontinues or significantly changes a specific vehicle or model during the period of this agreement which is then replaced by a new model of the same size or price class, FCA US may lower its discount on subject new model or vehicle type being replaced as mutually agreed upon by both parties through collaborative discussions.

Price Adjustments

The above payment grids have been developed based on existing or previous model year pricing. In the event that FCA US Fleet adjusts a vehicle price position downward, FCA US Fleet will also adjust the payment to maintain the net price position of the vehicle. This policy will remain in effect for the term of the Model year period.
