

# New Product Naming Announcement

JANUARY 2024

In alignment with the Low GWP Refrigerant Transition, certain Trane products will be undergoing name changes to help consumers better understand our product portfolio and set us apart from the competition. Products within traditional split systems and packaged units have been grouped into tiers based on shared characteristics and given names that call out differentiating features.

The name changes will occur when the products convert to R-454B with new model numbers. As these changes occur throughout 2024, they will be reflected on the Trane website and across our consumer literature. This piece will also be updated to reflect product conversions.

CHOICE	PRIORITY	PREMIER
The best choice for quality products with modern capabilities and optionality.	Prioritizing whole-home comfort through advanced features working together to create enhanced comfort.	Using the latest, most advanced technology to push the boundaries in delivering truly controlled, truly premier comfort.
GOOD	BETTER	BEST
